NOT IN FAVOR OF STRIKES

As Long As Both Sides to Any Dispute Make Honest Efforts to Settle It and There is Any Possible Chance of Reaching An Agreement By Any Other Means.

(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Ind., Jan. 18. — About thirteen hundred delegates faced President John P. White, when he opened the twenty-fifth convention of the United Mine Workers of America here today for one of the most important sessions the organization has held in a long time. Before the convention adjourns it will have outlined a policy that will affect probably a half million coal miners in the United States and Canada. Wage agreements expired this year in all the hard and soft coal districts of Pennsylvania, Ohio, Indiana, Illinois, West Virginia, Kentucky, Michigan, Kansas, Oklahoma, Arkansas, Missouri, Texas, Montana, Wyoming and Washington. these states there will be new demands made and if the powers that now control the miners' organization have their way coal mining will continue without interruption so long as there is a possible chance of coming to an agreement. President White favors such a policy and has stated that there should be no strikes so long as honest efforts are made by each side to arrange new wage scales. REFUGEES

Arrive in El Paso on Special Train from Chihuahua Today

SAFE CONDUCT HAD BEEN GIVEN

Party of Americans Massacred By Mexican Bandits

VILLA BANDITS PILLAGE

Scouring the Country In Groups, Clearing Ranches and Mines of Everything Valuable, But Molesting the Person of None—Bandit Leader's Body Transported to El Paso.

(ASSOCIATED PRESS TELEGRAM)
El Paso, Texas, Jan. 18.—More than 100 refugees from Parral, Chihuahua, arrived here early today, aboard a special train which started from the Mexican mining center yesterday afternoon. They reported that Villa bandits in groups were scouring the country, clearing ranches, mines and other property belonging to foreigners of everything valuable. As far as known, the refugees said, no one was molested after the eighteen Americans, belonging to the Cusi-huairac mining company, party, were massacred a week ago at Santa Isabel.

The statement that the victims of the massacre did not carry safe conduct when they went into Mexico, and were slain was denied today by persons who claim to have seen the passports which were issued by General Alvaro Obregon, the military chief now at Queretaro with General Carranza.

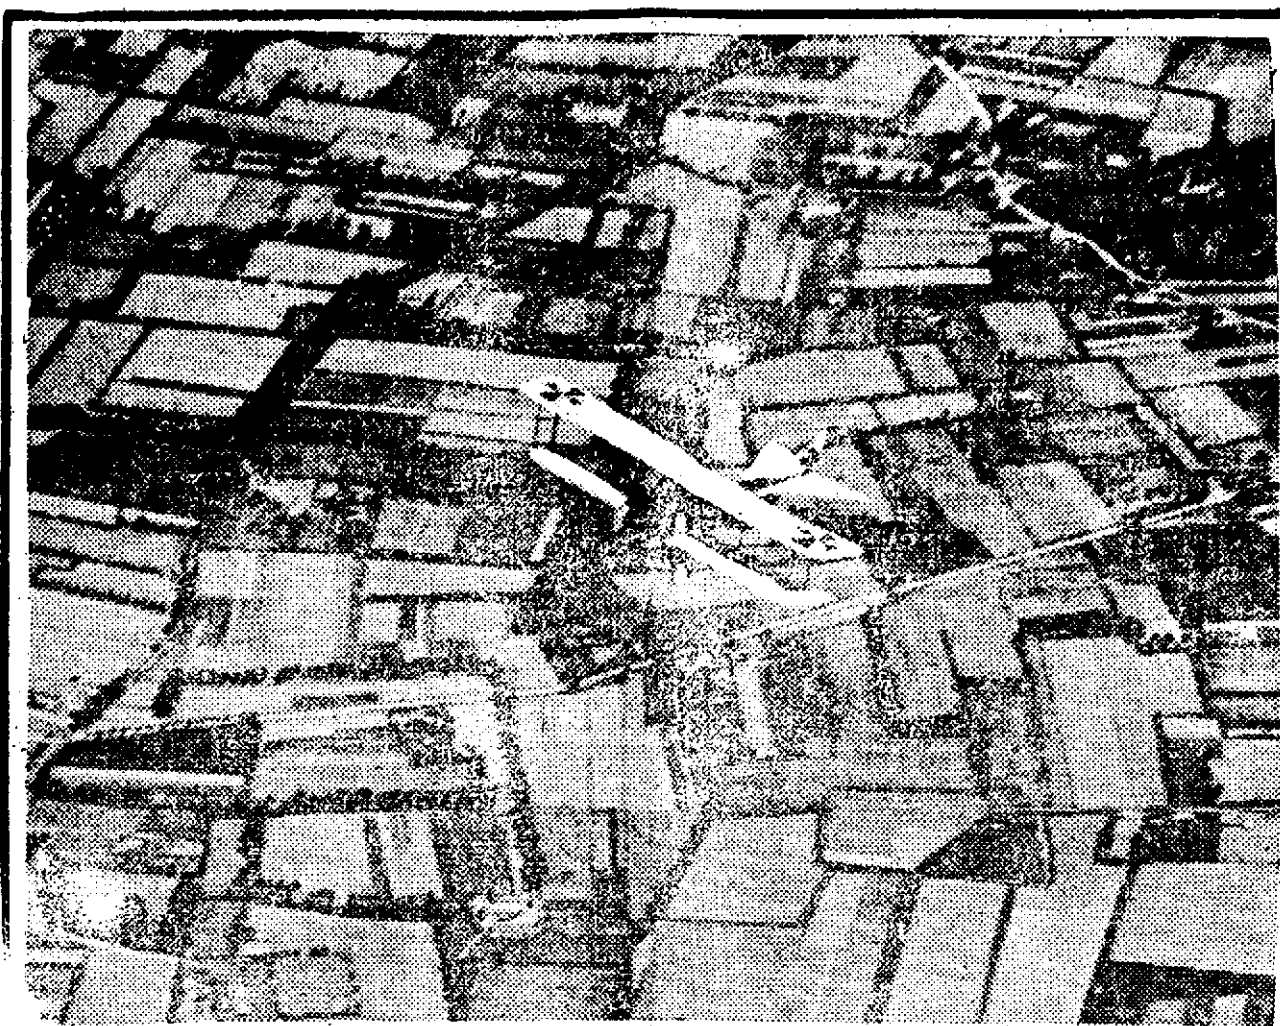

Statements emanating from Mexican officials that General Jacinto Trevino had offered an armed guard and that it was refused, also were denied. The refugees declared that Mexican officials at Parral, Camargo, and Chihuahua City had urged them not to leave Chihuahua state, promising protection against further violence, provided they would gather at central points under the guns of Carranza garrisons.

Many of the foreign residents, they added, had accepted these proffers and would remain, although a number announced their intention of coming out on a train which left Chihuahua City last night. A number of Americans aboard the train made the statement that General Obregon is practically a prisoner he acquired while military chief in charge of the Carranza interests on the border is declared to have met the displeasure of General Carranza.

Several refugees expressed the opinion that General Argumedo, who defeated Carranza forces in a battle at Escalon, January 10, had a plan to attack and capture Juarez. They asserted that Villa's men, who are moving southward in small bands, are trying to unite with Argumedo, who it is said, has six thousand men.

General Villa still can muster several thousand others and their partisans declare that many discon- (Continued on Page 10, Col. 1.)

BANDIT CHIEF EXECUTED BY FIRING SQUAD

BEFORE DYING SAID HE WAS NOT RESPONSIBLE FOR VILLA'S ACTS.

Body Taken Back to Railroad Station Lay There Exposed Until Dawn Today.

(ASSOCIATED PRESS TELEGRAM)
El Paso, Tex., Jan. 18.—General Miguel Baca-Valles, bandit chief, captured at Pajomas, South of Columbus, N. M., was executed at 5 o'clock this morning by a firing squad at Juarez. Two bullets fired at close quarters penetrated his heart. Last night on the train which here last night on the train which brought the body, declared to be that of Jose Rodriguez, bandit chief executed near Madera, last Thursday. Baca-Valles who was known as Villa's executioner at Juarez, was marched through the dimly lighted railway station where many families spend their nights.

Executions have been so frequent at Juarez in the final days of the Villa regime however, that little interest was shown. The proceedings were brief. The prisoner said: "I am not responsible for the acts of Villa. I beg to see your general." The officer commanding the firing squad said he had orders to kill, and he and a soldier stepped close to Baca-Valles and fired point blank into the prisoner's heart. The body was then taken back to the railroad station where it lay uncovered until after dawn on the platform among the men, women and children lying about wrapped in blankets. Lieut. Colonel Enrique Cisneros, who was captured last week with Baca-Valles is being marched overland with eight followers caught with him, and according to Mexican officials will be placed promptly

Samuel Gompers in Favor of Preparedness for the Nation; Describes Attitude of Labor

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 18.—Adequate preparedness for national defense was advanced here today by Samuel Gompers, president of the American Federation of Labor in a speech before a session of the annual convention of the national civic federation devoted to that subject. While he

understand that quality of the human race which made men willing to risk their all for an ideal.

"Men worthy of the name," he said, "will fight even for a scrap of paper," when that paper represents ideals of human justice and freedom. There is little progress made in the affairs of the world in which resistance of others is not involved. Though we may realize the brutality of war, though we may know the value of life, yet we know equally well what would be the effects upon the lives and the minds of men who would lose their rights, who would accept denial of justice rather than hazard their physical safety. The progress of all the ages has come as the result of protests against wrongs and existing conditions and through assertions of rights and effect demands for justice. Our own freedom and republican form of government have been achieved by resistance to tyranny and insubordination upon rights.

"Freedom and Democracy dare not be synonymous with weakness. As the result of the European war there is hardly a citizen who has not in some degree modified his opinions upon preparedness and national defense. The belief prevails that there must be some policy of preparedness and national defense, although there is wide divergence as to what policies ought to be adopted.

"Whatever plan may be adopted," said Mr. Gompers, explaining the attitude of labor, "the organized labor movement of America, demands that certain fundamental principles must be regarded. All policies and plans for national defense must be determined by representatives of all the people. The organized labor movement, which is the only means for expressing the will and the desires of the masses of our great citizenship asserts its right to representation (Continued on Page 10, Col. 3.)

Appropriations for the Next Six Months Are Knifed by the Finance Committee

Cuts of \$200 per year in the salary of the safety director, \$104 per year in the salary of the clerk to the safety department, a cut of \$5.00 per month in the appropriation ordinance which was passed by the city council at the regular meeting held last night. Other cuts were made in nearly every department of the city government but these were the only reductions made in salaries.

The reduction of revenue is due to two things. First, the reduction in the amount of money received from the saloon tax since the number of saloons was reduced from 88 to 56, and second, that the tax levy for the safety department has been reduced from about 1.68 mills to 1.25 mills. These reductions have taken place without any reduction in salaries or number of men employed and as a consequence, the safety department has turned up a deficiency each year. This deficiency at present amounts to more than \$8000 and must be paid, either from the funds available for the department or by a bond issue. The latter method is deemed inexpedient because it would only mean that an additional levy for the sinking fund must be made to take care of the bonds and interest.

Council has not yet taken any action on the proposition to reduce the force of the police and fire department, though it is not improbable that this will be done at a future meeting. The finance committee

simply refused to appropriate money enough to pay the salaries of all the policemen and firemen at the present rate fixed by the ordinance. Under the ordinance which now fixes the number of policemen and firemen and their monthly wages, it would require for the police department \$11,300 for salaries alone. Council appropriated \$9726. For the fire department the salaries alone would require \$12,000 and council appropriated \$11,425. Unless the heads of the department can reduce the force the men employed therein must suffer a cut of about \$5 a month each.

Both the finance and safety committees in reports submitted to council, spoke of the necessity of cutting the appropriation. Both committees spoke of the tax levy. While no statement was made on the floor of the council chamber, practically all the officials protested against the injustice of the present arrangement by which the city is denied representation on the county budget commission. While the city pays the biggest share of the taxes, it is denied the right to participate in the discussions which fix the amounts to be levied for its own purposes.

Reference was made to the fact that there is complaint of the increase in taxation in the payment of December taxes and in some cases this has been blamed upon the sub-stant bond issue but on the contrary, (Continued on Page 2, Col. 1.)

CARRANZA TROOPS HUNTING BANDITS, IN FIERCE FIGHT.

Chihuahua, Jan. 18.—Fighting between bandits and Carranza troops occurred yesterday at Guerrero, 125 miles northwest of Chihuahua, according to advices received here today. The bandits numbered 200. They fled, leaving one machine gun, 35 rifles and 35,000 rounds of ammunition in the hands of the Carranza troops.

General Jacinto Trevino, Carranza military chief Chihuahua, declared today that all bandits would be vigorously hunted down and no quarter given. Trevino claims to have four thousand men with 300 officers in the vicinity of this city. The bandits who looted Magistrate, an isolated mining camp south of Rosario, Durango, not only took all visible supplies, according to advices received today, but warned all foreigners they would be killed if they did not abandon the place. Only three foreigners boarded the train which left here today for Juarez. The rest express no fear for their safety.

Leslie Webb, a companion named Robinson, and twenty Mexicans are guarding the mines at Los Azules, thirty miles south of Parral. Three Germans are left at the Trollet mines near Santa Barbara.

260 DROWNED AS MINE SANK ITALIAN SHIP

(ASSOCIATED PRESS TELEGRAM)
Rome, Jan. 18.—Dr. Edward W. Ryan of the American Red Cross, who arrived here today, after a trip in Montenegro and Albania, said that 260 persons were drowned by the sinking of the Italian steamship Brindisi, which struck a mine recently in the Adriatic sea. Among those drowned was Miss Hamble, a nurse.

Miss Hamble's body was buried at San Giovanni di Medua, Albania. Dr. Ryan said Mariano Lamo, a nurse, reached Scutari in safety and hopes to return to the United States. Dr. Dura Gucha, was landed at Scutari. Dr. Cunot reached Brindisi, and sails for home today on the steamship Patria, from Naples for New York. Dr. Ryan said there were 247 Montenegrin soldiers from the United States on the steamship.

Dr. Ryan's trip extending over a period of sixteen days, was made for an investigation of conditions in Montenegro and Albanian towns, on behalf of the American relief clearinghouse of Paris. "No food, but removal to a place of safety, is the need of 10,000 women and children, Serbian refugees at Scutari and other points," Dr. Ryan said.

DROWNED NURSE WAS A NEW YORK WOMAN.

(ASSOCIATED PRESS TELEGRAM)
New York, Jan. 18.—Miss Stefanie Hamble, the nurse who was drowned when the Italian steamship Brindisi was sunk by a mine in the Adriatic sea, lived at 705 Jackson Avenue, the Bronx, New York, with her parents. She left Canada late in December with a Red Cross expedition after a visit here. With the exception of a short vacation, she had been in Europe since the war started.

DENIAL

That Von Papen Used Money With Which to Pay Individuals

TO BLOW UP MUNITION PLANTS

Made for Him By Berlin Official News Agency

NO ILLEGAL RELATIONS

Would Be Established By Check Book Stubs and Letters, Between Dates of Money Payments and the Alleged Criminal Attempts Statement Con- tends.

(ASSOCIATED PRESS TELEGRAM)
Berlin, Jan. 18.—(By wireless to Sayville.)—A denial that Captain Franz Von Papen, recalled German money to individuals in the United States in connection with attempts to blow up munitions factories or bridges was made today by the official news agency. The agency's statement follows: "Captain Von Papen's letters and bank books, which were seized in violation of the safe conduct guaranteed to him are of a purely personal character or have to do with usual business affairs. Captain Von Papen never paid money to persons connected with attempts or alleged attempts against munition plots, bridges or other American property. No check ever was paid to Werner Horn, who is accused of an attempt to blow up a Canadian railway bridge.

"The letters and check stubs, if reproduced in fac-simile would prove that nothing in the way of illegal relations was established between the dates of such payments and of criminal attempts. "The British press reports evidently are intended to counterbalance the bad impression created by the publication of the letters concerning Greece which were seized from Colonel H. D. Napier, former British military attaches at Sofia. It evidently is hoped to stir up ill feeling against Germany at a time when Great Britain is observing with regret the improvement in German-American relations."

STATE DEMOCRATIC COMMITTEE CALLED TO MEET JAN. 27

Columbus, O., Jan. 18.—W. W. Durbin, Chairman of the Democratic central committee today issued a call for a meeting of the committee in this city January 27, at 1 p. m. At this meeting the date for the Democratic state convention will be set. The state central committee also will determine the basis for representation at the convention. The Republican state central committee meeting here last Friday set June 21, as the date for the Republican convention.

Democratic leaders said today it is possible their convention may be held a few days before the Republican gathering.

Wilson and Huerta Compared to the Former's Disadvantage; Senate Refused to Hear It

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 18.—Mexico came up in the senate again today when Senator Lippitt, Republican, had the clerk read an editorial attacking President Wilson and eulogizing the late General Huerta. The reading had not proceeded far when Senator Myers, (Democrat) interrupted it. "I object to the further reading of this editorial," he declared. "I think that it is entirely improper for the senate to put itself in a position of criticizing the president of the United States, in eulogy of a man characterized as a cut-throat and a usurper."

"The senator is entirely right," declared Chairman Stone, of the foreign relations committee. "While it is probably true that some newspaper writers can state the attitude of some senators better than they can state it themselves, I hope in the future we will not have any more of this thing attempted or done. I shall object."

VIGOROUS

Attacks on "Peace at Any Price" Advocates by Prominent Speakers

NATIONAL CIVIC FEDERATION MEETING

Hears Reasons for Maintaining Adequate Defense

THIS DUTY IS PARAMOUNT

Declares Former Governor O'Neil of Alabama, Who Says Opposition In Congress to President's Program Comes From Those Who Object to Any Reduction In "Pork Barrel"

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 18.—Stirring pleas for national preparedness and vigorous attacks on "peace at any price" advocates, were made by speakers of national prominence at the closing session today of the annual meeting of the National Civic Federation.

The speakers included Samuel Gompers, president of the American Federation of Labor. John Hays Hammond, Senators Wadsworth and Phelan, former Governor O'Neil, of Alabama, Arthur H. Daudman, secretary of the Navy League of the United States, and Talcott Williams, of New York, dean of the Pulitzer School of Journalism.

"We are forced to the conclusion, however, opposed as we may be to the profuse expenditure of the nation's wealth, that military and naval defense, even in the case of a peace loving nation, is imperative in the present status of international relations," declared Mr. Hammond. "In pursuance of Pan-Americanism," he said, "we are to extend our sphere of influence, we shall need a navy of far greater strength than that of any other power, with the sole exception of Great Britain. With Japan we have other issues in addition to our 'open door' in China policy, that might bring a crisis."

In conclusion Mr. Hammond expressed the belief that a Panama canal bond issue to meet the cost of national defense would be less objectionable than any system of direct taxation. Former Governor O'Neil declared it was difficult to believe that the "peace at any price" advocates realize the "debasing and demoralizing doctrine they preach."

"The paramount duty of America is preparedness," he said. "The most serious opposition in congress to the preparedness program," he continued, "is to be expected from those members who bitterly oppose any reduction in the size of the 'pork barrel.'"

The speaker urged the creation of an adequate navy as a first line of defense, an efficient standing army of several hundred thousand men and the adoption of the Swiss or Australian plan of universal service to make up a reserve army.

Declaring that the United States, if ever defeated in war would have to pay an indemnity reaching as high as \$10,000,000,000, if the tribute laid on France by Germany in 1871 may be taken as a measure. Mr. Williams said that the interest on this enormous sum would be as large as any expenditure now proposed for increasing this country's army and navy. For all the time, he added, this interest charge would be met by all the industries of the land and any attempt to throw this (Continued on Page 10, Col. 2.)

Lewis, (Democrat), then asked that his resolution which would direct the president to send armed forces to Mexico to co-operate with Carranza's troops in maintaining order be referred to the foreign relations committee. "I would suggest," said Senator Borah, Republican, "that we act on the resolution now. I am ready to dispose of it at once. The resolution might just as well be withdrawn for any good it will do American citizens being murdered in Mexico, it is to be sent to the foreign relations committee. I do not mean to reflect on the committee, but this is the hour when Americans in Mexico need protection. This senate ought to take a decisive step this moment, notifying the defacto government in Mexico, that we are ready to use the armed forces of the United States to protect our people."

Vice President Marshall ruled the discussion out of order, and Senator Lewis gave notice that later he would move to have the resolution referred, in order that the committee might act on it tomorrow.

WOMEN SUFFERERS NEED SWAMP-ROOT

Thousands upon thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, headache, loss of ambition, nervousness and may be despondent and irritable.

Don't delay starting treatment. Dr. Kilmer's Swamp-root, a physician's prescription, obtained at any drug store, restores health to the kidneys and is just the remedy needed to overcome such conditions.

Get a fifty cent or one dollar bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Newark Advocate.

APPROPRIATION

(Continued from Page 1.)

The levy for municipal purposes is the same as it was last year, 3.1 mills. Attention was also called to the fact that the tax payers within the city were paying for levies made for five different road funds.

In the future, the tax levy must be increased for city purposes, or some form of expense must be cut down, especially in the police department.

After wrestling with the finance ordinance for two weeks following the first meeting of council, the members last night called in all heads of departments and told them to get busy with the money shears. Practically every department was cut to the limit. In some cases no appropriations whatever were made. In the past it has been the practice to make appropriations for funds where no expenditures were anticipated and these funds were used to fall back upon for extra money when unforeseen contingencies arose. Councilmen declare that there will be no transferring of funds this year. It is now up to the heads of departments to keep their expenses within the amount in the fund, which the expenditures are made.

There promises to be some interesting developments regarding an automobile purchased by the Safety department for use of the fire department repair man. This machine was bought from Curtiss & Williams, Columbus, at a cost of \$210. Councilman Seward last night told his colleagues that the machine was the good, and that the safety committee to go into the matter carefully. This is the same firm which was awarded the contract for the fire trucks by Safety Director Patton at

ITCHING NEARLY DROVE A WHOLE FAMILY CRAZY

Kansas City, Mo., Oct. 24, 1914.—"My husband had a rash all over his body, and soon the WHOLE FAMILY was in the same condition. It kept seeping and raised up on the arms and body in big bumps. This trouble burned and itched so that it would nearly drive me crazy. I was always worse at night, so we could not sleep. We all had this trouble for about three or four years, and during that time we tried many remedies and prescriptions with no results. We tried Resinol Ointment and Resinol Soap and it RELIEVED AT ONCE, and before the third jar of ointment had been used, we were all completely cured. It has been four months since we were cured, and there are no traces of the trouble." (Signed) Mrs. S. A. Clark, 1229 Lawn Ave.

Every druggist sells Resinol Ointment and Resinol Soap, and physicians have prescribed them for 20 years in the treatment of skin trouble.

The Service Station For Thrift

We have often said in our advertising that this is what we have been ambitious to make this fine new building of ours.

We believe this hope has been justified by the phenomenal success, and the great service that will be rendered to this year's Christmas Money Club.

Over 6000 people have joined the Club, each pledging himself or herself to make fifty regular weekly payments, or the equivalent thereof.

This steady saving on the part of so many people is an inspiring example in any community.

We believe it is going to be a big factor in making Newark a wonderful city of savers.

We believe it marks a great forward step in the practical dedication of our new building to service in behalf of the people of this city.

Safety department for the year.

By dividing the total receipts amounting to \$51,918.43 in half we have \$25,959.26 to pay the expenses of the safety department for the fiscal half year ending June 30th. This does not include the indebtedness of \$8,120 which must also be met.

In view of this condition of the safety fund we desire to state that the council should take some action to reduce the expenditures of this department.

We also desire to state that the levy of 1.25 mills allowed for the county budget commission for safety purposes is not sufficient to meet the requirements of the Safety Department.

The city of Newark must therefore stand for one of two things either for an increase in taxes or a curtailment of expenses in the safety department by reduction in wages and number of employees or both.

We do not recommend a bond issue at this time to meet the deficiency as such an issue would only increase the tax levy for sinking fund purposes and the safety department or some other department of the city would suffer in fixing the total levy for the city to come within the provisions of the one per cent law.

We call attention also to the fact that the tax levy cannot be changed before the budget commission fixes the rate and apportionment for the year 1915.

Respectfully submitted,
W. C. CHRISTIAN,
Director of Public Service.

All these reports were received and filed.

Safety Director Bigbee made his first report to council in which he called attention to the fact that a number of bills were left unpaid because funds were exhausted. The bills amounted to \$98.12. It was referred to the public safety committee.

City Treasurer Cliff Frye made his annual report to council showing the receipts and expenditures for the years as follows:

Balance Jan. 1, 1915.....	\$55,530.02
Cash received.....	12,112.93
Total.....	\$67,642.95
Paid out on warrants.....	\$78,731.95
Balance Jan. 1, 1916.....	\$60,662.91

The balance includes the money received for the subway bonds something over \$240,000, which leaves a balance aside from this money, something more than \$40,000.

City Engineer Wells' report of the estimate of cost of paving of Chestnut, North Fifth and Commodore streets. The report was received and filed.

A petition from property owners on Commodore street asked that the street be paved.

Property owners in Fifth street from Hoover to Commodore street, asked that the street be paved.

North Newark people again petitioned council for the extension of Kibler avenue, property owners donating the land necessary for such extension.

A communication from Miss Carrie Murr regarding an assessment against North Fourth street property for a sewer constructed several years ago. The report was referred to the law committee.

An ordinance by Mr. Stasel to levy special assessment for the first street sewer was passed on suspension of rules.

Councilman Curry's ordinance to levy special assessment for the paving of Charles street was passed on suspension of rules.

Mr. Beadle's ordinance to levy special assessment for the paving of Gay street was passed on suspension of rules. His assessment ordinance for the paving of Buena Vista street was also passed on suspension of rules.

An ordinance by Mr. Stasel to levy special assessment for the sewer in Indiana, Front, Locust and Jackson streets was passed on suspension of rules.

The special assessment ordinance for the Clarendon street sewer, introduced by Mr. Beadle was passed on suspension of rules.

Mr. Keyes' special assessment ordinance for the Williams' street paving was passed on suspension of rules.

Mr. Keyes' finance ordinance appropriating money for the next six months was passed on suspension of rules. The amounts appropriated are:

Mr. Adams resolution for the improvement of Chestnut, North Fifth and Commodore streets was adopted by suspension of rules. Mr. Seward voted no on suspension of rules and no on adoption of the measure.

Council adopted Councilman Curry's resolution authorizing the president to appoint three property owners to appraise property for the assessment of Kibler avenue paving.

Mr. Knauber offered a resolution authorizing the remittance of an assessment of \$17.83 to the Willis Robbins heirs. It was declared out of order.

A resolution by Mr. Seward authorizing and directing the safety director to dispose of the motorcycle used by the police department. Mr. Seward said the machine was useless as officers refused to ride it, and those who have used it have been disabled.

Safety Director Bigbee said he had not been advised about the proposed action and believed that the machine would be valuable to the department. He said he expected to place it in use this summer.

When the resolution was placed on passage it was supported by Councilmen Knauber, Seward and Shirer while Messrs. Adams, Alexander, Curry, Keyes and Stasel voted against the resolution. It was declared lost. The machine will not be sold.

Mayor Bigbee's bond for \$2,000 was submitted to council, was accepted, recorded and filed.

Pres. Keller appointed Messrs. William Anderson, Ernest T. Johnson and E. S. Randolph as a committee to appraise Kibler avenue property for the paving assessment.

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

A Hint to Mothers Of Growing Children

A Mild Laxative at Regular Intervals Will Prevent Constipation.

A vital point upon which all schools of medicine seem to agree is that normal regularity of the bowels is an essential to good health. The importance of this is impressed particularly in mothers of growing children.

A very valuable remedy that should be kept in every home for use as occasion arises is Dr. Caldwell's Syrup Pepsin, a compound of simple laxative herbs that has been prescribed by Dr. W. B. Caldwell of Monticello, Ill., for more than twenty-five years, and which can now be obtained in any well stocked drug store for fifty cents a bottle.

In a recent letter to Dr. Caldwell, Mrs. H. C. Turner, 814 Main St., Buffalo, N. Y., says, "I bought a bottle of Dr. Caldwell's Syrup Pepsin for my baby, Roland Lee Turner, and find it works just like you said it would. It is fine for the stomach and bowels."

A bottle of Dr. Caldwell's Syrup

ROLAND LEE TURNER.

Pepsin should be in every home. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

A MORE RIGID BLOCKADE IS DECIDED UPON

APPLICATION OF MEASURE TO
NEUTRALS LIKELY WILL
DRAW FORTH PROTEST

From United States, Holland, Den-
mark, Sweden and Possibly Nor-
way Diplomats Believe.

(Associated Press Telegram)
Washington, Jan. 12.—The right
to declare a formal blockade of the
central powers by a more rigid ap-
plication of the "ultimate destina-
tion" doctrine has been agreed upon
by the entente allies, according to
information in diplomatic circles here
today. The doctrine is expected to
be proclaimed in the near future,
the delay being attributed to the
reluctance of France and Italy to en-
force so broad an interpretation of
the right of a belligerent in this
respect.

Exchanges in the subject are tak-
ing place between the diplomatic re-
presentatives of the allies here and,
in an informal way between the dip-
lomats and state department offi-
cials. The object is to sound out
public sentiment in the United
States. It is regarded here as vir-
tually certain that application of the
blockade to neutrals will result in
United States' opposition being sup-
plemented by the bitter protests of
Holland, Denmark and Sweden,
and possibly Norway. It is pointed
out by one of the interested diplomats
here, however, that the promulgation
of a blockade would not very materi-
ally change present conditions so far
as shipping American goods into the
Teutonic countries is concerned.

GRIPPE NOW EPIDEMIC PUBLIC TAKE WARNING

Keep Away From Sneeze and
Coughs and Make Throat Germ
Proof With Oxidaze.

People everywhere are comment-
ing on the epidemic of grippé, pneu-
monia, coughs and colds that has
struck Newark just as it has at-
tacked Chicago, Philadelphia, Mil-
waukee, Detroit and other cities. A
warning is issued to the public by
the health authorities to "keep away
from those who are sneezing and
coughing and to keep out of crowds
as much as possible as the air is
filled with infectious germs and
disease."

One of the simplest and best ways
to avoid contracting or to quickly
stop coughs and colds which may
lead to Grippé or Pneumonia is to
breathe deeply through the nose,
walk in the fresh air as much as
possible and keep the throat clean,
antiseptic and germ-proof by dis-
solving in the mouth two or three
times daily a little Oxidaze in ta-
blett form. These Oxidaze tablets are
made from a physician's prescrip-
tion and will knock out the average
cough or cold inside of twenty-four
hours. A few tablets taken in time
will almost invariably prevent the
cold becoming grippé, pneumonia or
something worse. W. A. Erman,
Evans Drug Co., and most of the
best druggists have these Oxidaze
tablets and sell them on the positive
guarantee that they will break up a
cold and stop a cough or money
back. Be sure to insist on Oxidaze
(tablet form) and take nothing in
their place. They are easy and con-
venient to take, contain no habit
forming drugs and, unlike ordinary
cough drops and cough remedies are
guaranteed to stop your cold or money
back.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET
AND REDUCE YOUR WEIGHT
WITH OIL OF KOREIN.

Lack of fresh air weakens the ox-
ygen-carrying power of the blood,
the liver becomes sluggish, fat ac-
cumulates and the action of many of
the vital organs are hindered there-
by. The heart action becomes
weak, work is an effort and the
beauty of the figure is destroyed.

Fat put on by indoor life is un-
healthy and if nature is not assisted
in throwing it off by increasing the
oxygen-carrying power of the blood,
a serious case of obesity may result.

When you feel that you are get-
ting too stout, take the matter in
hand at once. Don't wait until your
figure has become a joke and your
health ruined through carrying
around a burden of unsightly and
unhealthy fat.

Spend as much time as you possi-
bly can in the open air; breathe
deeply, and get from any druggist a
box of oil of korein capsules; take
one after each meal and one before
retiring at night.

Weigh yourself every few days and
keep up the treatment until you are
down to normal. Oil of korein is
absolutely harmless, is pleasant to
take, helps the digestion and is de-
signed to increase the oxygen-carry-
ing power of the blood.

Even a few days' treatment should
show a noticeable reduction in
weight. There is nothing better.

At the conclusion of the exercises
of installation addresses were in
order and Mr. E. S. Tussing spoke on
the things the Grange accomplished
for the uplift of mankind. Mr. By-
ron Swayer of Newark gave an in-
teresting talk on what the Grange
stands for and Rev. T. T. Buell spoke
of the good lessons taught by the
Grange.

The following interesting literary
program was then given:
Piano solo—Mabel Wallace.
Reading—Sylvia Davis.
Mixed Quartet—A. M. Arnold,
T. C. Jury, L. Arnold and Francis
Jury.

The next meeting will be held on
Saturday evening, January 23.

EXECUTIVE COMMITTEE OF THE
AMERICAN BOTTLE CO. UN-
DER RE-ORGANIZATION

By Which Owens Bottle Machine
Company Secures Controlling
Interest in American.

Announcement is about due of a
glass bottle transaction involving
millions of dollars, according to the
National Glass Budget. The Owens
Bottle Machine Co., of Toledo, O.,
through the exercising of an option
taken on stock held by some of the
larger stockholders of the American
Bottle Co., is soon to acquire a con-
trolling interest in the American
company, the largest producer in the
world of beer and mineral water
bottles and non-alcoholic carbonated
beverage containers with an an-
nual capacity of 2,000,000 gross of
ware.

The American Bottle company was
organized by leading manufacturers
in these lines following the advent
of the Owens automatic machine in
1904. It has a capital stock of
\$3,719,000 preferred; \$4,000,000
common, and \$700,000 special. It
is understood that the Owens com-
pany's option includes all classes of
stock at par, either for cash or in
new preferred stock of the Owens
Bottle Machine Company, or part in
cash and part in preferred stock. In
the event of the Owens company
closing its option, which is virtually
assured, it is proposed to issue
\$7,000,000 7 per cent cumulative
Owens Bottle Machine Company pre-
ferred stock, thus increasing its
capitalization to \$15,000,000. This
matter has been under advisement
for some little time past, and a re-
port has gained currency to the ef-
fect that the American company was
to be merged into the Owens com-
pany. This, we are in position to
say with authority, is not the case.
The transaction simply means an
investment in the American com-
pany's securities and there will be
no change in the management of
that company at the present time.

The American Bottle company,
with headquarters in Chicago and
an equipment of 54 Owens auto-
matic machines, has large, up-to-
date plants at Newark, O., and
Streator, Ill. E. H. Everett of New-
ark, is chairman of the executive
committee, and M. W. Jack of
Streator, is president of the com-
pany.

During the year ended September
30, 1915, the Owens Bottle Machine
company paid cash dividends ag-
gregating 7 per cent on the pre-
ferred and 12 per cent on the com-
mon stock, and a common stock di-
vidend of 25 per cent. At the an-
nual meeting of the company, held
on November 9, 1915, a common
stock dividend of 20 per cent was
declared, payable November 27, and
regular cash dividends payable De-
cember 31.

A Western woman doctor declares

The fuel economy of IDEAL Boilers
is the result of accurately placed
fire surfaces, inner flues, and cor-
rugated fire pots which admit the air in proper amounts for the complete combustion of the
rich gases from the fuel. Too much or too little air wastes or kills the fire. The construction
of IDEAL Boilers gets all the heat out of the fuel you burn—makes the smallest amount of
coal produce the maximum volume of heat.

The Labor Savings of IDEAL Boilers depend upon their generous fire pots, which hold sufficient fuel to last,
without shoveling coal and refilling, for periods of time from 8 to 24 hours—depending on
severity of weather.

Complete and pleasant winter comfort is had without the ever-present thought

In speaking of the matter he says:
"I had the most disagreeable pains in
my back, side and stomach and
could get no relief until I tried Tan-
lac. This great medicine cleaned
me out and now I feel fine—in fact
like a different man. I had tried
other things without much if any
benefit and hearing your Tanlac
recommended for cases like mine I
decided to try it and it was a lucky
thing that I did for it in my case
did all and more than was claimed
for it and I unreservedly and gladly
recommend it to those similarly af-
flicted. Tanlac the Master Medicine
is equally as good for catarrh, rheu-

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)
"The real secret of keeping young-looking
and beautiful," says a well-known hygienist,
"is to keep the liver and bowels normally
active. Without these regular
waste products remain in the system, pollut-
ing the blood and lodging in various organs,
joints, etc. One becomes flabby, obese,
nervous, mentally sluggish, dull-eyed, wrinkled
and sallow of face."
"But to get liver and bowels working as
they ought, without producing evil after-effects
has been the problem. Fortunately, there is
a prescription of unquestioned merit, which
may now be had in convenient tablet form.
Its value is due largely to an ingredient de-
rived from the humble May apple, or its root,
which has been called 'vegetable salomel' be-
cause of its effectiveness—though, of course, it
is not to be classed with the real salomel of
medieval origin. There is no habit-forming
constituent in 'Santalol' tablets—that's the
name—and their use is not followed by weak-
ness or exhaustion. On the contrary, they
harmless vegetable tablets tend to impart tone
and elasticity to the relaxed intestinal wall.
Santalol tablets, which may be procured from
any druggist—also the worth will do—will
prove a revelation to any constipated, liver-
troubled person."

Military Service and Business.

When discussion began about means by which the United States army could be strengthened, it was at once recognized that perhaps the greatest obstacle in the way lies in the difficulty of adjusting the demands of military training to business life. Employers are loath to let their young men absent themselves from work to attend military camps. Young men are fearful that such absences would be an obstacle in the way of their business success.

However, the young man who takes a course of training with a militia organization, should take one with the proposed Continental army, would learn many things not taught in business offices. If he devotes himself to military work with energy and zeal, he should in due course of time attain some promotion, where he would be placed in command of a small squad of men. He would then get practice in a very valuable art, that of commanding men.

Many boys are sent to expensive military schools and colleges for costly courses, largely to acquire just this valuable gift. The ability to direct a body of men, command their respect, enforce prompt obedience and discipline, is a superb training in leadership. It develops self-confidence, ability to think quickly, meet emergencies. Many men fail in life for lack of just this group of qualities.

Whether or not a boy was promoted to any military command or not, he would find military service rewarding. The out-door life would give him physical vigor. The leadership of the alert and active men who come from pleasant associations and enjoy experiences far more interesting than those of ordinary town and business life. Business firms may at first be reluctant to see their young men absent on military duty. After they see how the fellows grow and develop under competent military training, they may compete with each other to get boys that have been through this discipline.

To make military work popular with the business community, encampments must be strictly conducted. There must be no dissipation, liquor and other vices must be strictly banished, and the men must return showing in their physical vigor that the life has been wholesome in all respects.

Automobiles and Courtesy.

At a meeting a few days ago of the National Automobile Chamber of Commerce a movement was started to promote greater consideration for public safety and comfort. The courtesies of the road are to be emphasized and the effort made to create better standards of good manners on the public highways.

The automobile manufacturers who make up this organization evidently realize the difficulty of this problem of adjusting motor vehicles to conditions of traffic created long

marriage, and for purposes of self-preservation in the Adriatic Italy's interests demand that Austria should not be permitted to secure the Montenegrin strongholds. Notwithstanding such incentives to action and the fact that Montenegro can be reached in three or four hours from the Italian coast no help has apparently been sent, and for weeks past the world has looked on while the Dual Monarchy strangled the people of the Black Mountain. There may be some good reason for this callousness, but at this distance it looks like one of those unspeakably stupid blunders of which the entente powers have committed so many. And they complain loudly because the United States does not place all her resources at their disposal for further acts of folly.

City As Lonely As Farm.

(Chicago Tribune.)

The writer of early American life in the Middle West and Far West emphasizes the hardships suffered by the women pioneers who accompanied their husbands on the plunge into the wilderness, and points to the wearying monotony of life led by women on the frontiers.

The student of agricultural society calls attention to the dreary life of women whose farmer husbands are unable to give them relief from the monotony of work on the farm. But, according to Lucile M. Windette, who has just completed a series of investigations into the life of the working class, there are women living within the boundaries of the second largest city in the country whose lives are just as dreary, just as monotonous, just as maddening as the lives of the pioneer women, the women of the farm and the women of the desert.

Miss Windette's investigations were confined chiefly to the Nineteenth ward, where conditions were found typical of those in many other parts of Chicago. In her report, which is entitled "Life and Work Among Our Neighbors," she reviews in detail the various phases of life among the working people. Here are some of the conclusions:

"A thoughtful person can fail to be struck by the monotony which characterizes the life of most married women in the working class. This is less marked in the more typical slum districts, where the life is lived more in common. But the women are little better than shut-ins, who live in these streets and spend the whole day indoors, when their husbands are at work.

"The young mother who has all the care of a growing family of children has little opportunity for visiting about. She may step into her neighbor's house, or meet others in the yard or on the front doorstep to gossip, but rarely does she go farther, and if she is able to get away for a holiday or an evening at the movies she must usually take the baby with her."

When Peace is Signed.

(Pearson's.)

When the war comes to an end, a treaty of peace will be signed, sealed and delivered, as between the various belligerents.

This will be a most imposing document, written by hand throughout, sealed with green silk ribbons, and bound about with green silk ribbons. Following the usual custom, each copy will begin with the words, "In the Name of the Most Holy and Undivided Trinity." Should, however, Turkey be one of the signatory Powers, as seems probable, this formula will be altered to "In the Name of Allah the Almighty God" in the copy allotted to her.

At least as many original copies as there are signatory Powers will be signed and sealed, while several certified copies will be signed, but not sealed; for the sake of convenience. The original copies will be securely locked up in the state archives of the different countries; the certified copies will be used for printing from and for reference.

Peace treaties are not written straight across the page, or pages, like ordinary documents. They are written in parallel columns, one in English, the next in French, the next in Italian, German, Russian and so on, according to the number of languages spoken by the peoples of the signatory Powers. The text of each of these columns is an exact translation of the text of all other columns, and the utmost pains is taken in the selection of words that will convey identical shades of meaning.

The monarchs of the signatory Powers don't affix their signatures or seals to the peace treaties entered into by them. This important formality is carried out by specially accredited peace commissioners, each of whom uses his own personal, private seal, the impressions being in red wax.

"Strong Men."

(New York World.)

One of the common delusions about Huerta is that he was a strong man, in spite of his ghastly defects of character. Huerta was a strong man, only in the sense that Villa is a strong man, which means that he was cunning and ruthless. Latin America has produced thousands of strong men of that type; but they never rule long.

What Mexico needs most of all is not strong men but patriotic men; and of these she has had few. Madero came nearer to measuring up to patriotism as Americans and Europeans understand the term than any other man of his generation, and Madero went to his death because a United States Ambassador had threatened Mexico with intervention if Madero did not retire from the Presidency. The Ambassador, of course, did not realize what he was doing, and did not know that the Huerta forces intended to murder Madero in order to make sure that he would no longer trouble the rich land-owning classes; but that is the short and tragic history of the one distinguished attempt of a Mexican of high ideals to bring the government of that unhappy country into helpful relations with the common people.

Spirit of the Press

To Lengthen Life of a Necktie.

A great many people who are users of four-in-hand ties are more or less bothered by the tie's becoming useless after it has been worn a few times. Take the wide end of the tie with seam up and lay it flat upon a table. Then thrust in the finger and seize the lining. Take the silk cover in the other hand and pull it over the lining, about half of its length. A hot iron is then run over the lining to straighten it out.—Popular Science Monthly.

Seems Hardly Ethical.

The "Dear Old Ladies."

There are as many kinds of old ladies as there are girls, men, automobiles, books and remedies for a cold. There are kindly old ladies, sharp old ladies, witty old ladies, stupid old ladies, musty-fusty old ladies, dainty old ladies, wise old ladies, silly old ladies. Whistler's mother, old ladies, Betsy Trotwood old ladies, white-spattered old ladies, churchly old ladies, by-the-fire old ladies, tangoing old ladies, and old ladies who don't wish to be called old ladies at all!—Scribner.

The Worst Story Ever Published.

By way of contrast, it seems a necessity to call attention to a story so monumentally insane that it is funny. "War," by W. B. Trites, published recently in The Saturday Evening Post, is easily the worst story ever published in a distinguished magazine. Life is too short to read it again, even for amusement, but its richer absurdities may be found duly catalogued in Harper's Weekly for July 17. It is not surpassed by the "Life of the Cape Breton Giant McAskill"—Boston Transcript.

Honest Paragrapher's Ambition.

A Sermon on Preparedness.

After the man gets through telling you that he is against preparedness, follow his conversation. Before he gets to the end he will give you a discourse upon the poor showing England has made in the war. "If it were not for England's navy," he will say, "England would be clear out of the fighting."

England's navy was the only preparation that country had made for war. The United States is lacking even in the preparedness of its navy.—Kansas City Star.

Rippling Rhymes

The Winter Day.

The leaden clouds were blown away, the sun got busy overhead; it was a perfect winter day, without a blemish, critics said. The judges who had passed on days, at many a state and county fair, admitted that we couldn't raise a finer sample, anywhere. I walked nine miles, just to inhale the crisp, keen air that braced like wine; it seemed to render sound and hale these ancient, spavined limbs of mine. And nearly every man I met was grumbling at that perfect day. "We do not want spring weather yet—it's bad for us," I heard men say. "Such weather will relax the pores, and leave us open to disease, and when again the tempest roars, we'll have rheumatism in the knees. These balmy days are simply snares, designed to kill off human wrecks, and when again the blizzard tears, we'll have lumbago in our necks." I get discouraged, oftentimes, there are so many jays on earth, who simply won't indulge in smiles, but dish up brine, a jibney's worth. The sun may shine, and breezes sweet as Eden's spicy airs may blow, and still they'll kick with all their feet, and make a specialty of woe. Wait Mason.

Has the true spirit of Americanism ever been described in nobler language?—New York World.

Music

Mme. Frances Alda will sing a concert program at Memorial Hall, Columbus, February 15th, the last of Kate M. Lacey's quality series. Frank La Forge, eminent pianist will divide the program with Madame Alda.

Mme. Frances Alda, prima donna soprano of the Metropolitan Opera Company, wins new friends in the concert field every day and it is doubtful if there is a singer now before the public who enjoys such general popularity. Excerpts from her recent press notices contain hundreds of such sentences as: "The beauty of the songs and the genius of the singer made her a favorite at once," or "Mme. Alda not only has a beautiful voice of exquisite cultivation, but an ease and graciousness of manner that are delightful to her hearers," or "Nature has indeed been kind to Mme. Alda. Beside giving her a voice of wonderful quality and power, she has endowed her with radiant beauty and charm, and with a graciousness that captivates her audience," or "One is oftentimes forced to complain that singers trained in opera are disappointments in concert for the reason that they do not take into consideration what the concert audiences want. This fault cannot be laid at the door of Mme. Alda, for her entire program—in selection, arrangement and treatment—was exactly of the sort that makes for the broadest appeal without for a moment being commonplace," or "More than one of her songs she had to repeat, and many extra ones have been coaxed into giving," or "I have heard every singer worth while in the last twenty years but never do I recall a more lovely voice or one that yields instantly to the requirement of the most dramatic music and still is so flexible that it is quite as effective in the delivery of eminently lyric phrases calling for the smooth, flying mezza-voice so rarely found."

Francis Macmillan, violin virtuoso, who will be heard at the Auditorium theatre tomorrow evening, January 19, under the auspices of the Women's Music club, scored an enormous success on Monday as soloist for the New York Philharmonic orchestra. He appeared at the Brooklyn Academy of Music before an audience of 4,000 people.

JONES FAVORS RENOMINATION OF GOV. WILLIS

Columbus, O., Jan. 18.—Republican state chairman, Edwin Jones today announced himself as in favor of the re-nomination for Governor Willis. This was interpreted by political observers as effectually disposing of reports that Mr. Jones was considering becoming a candidate for the gubernatorial nomination in opposition to Governor Willis. The state chairman indicated his attitude in an interview shortly before a conference with the governor.

Incidentally Mr. Jones took occasion to criticize Republican leaders who are reported to have been trying to stir opposition to the re-nomination of Gov. Willis. He specifically mentioned John A. Cline of Cleveland, former Cuyahoga prosecutor, who is said to have declared his attitude that the party would not name Governor Willis as its chief standard-bearer next year.

"It is all foolishness to talk of nominating some other man than Governor Willis," said Chairman Jones. "He will be nominated and elected, I believe. He is entitled to the nomination and a second term. To do otherwise would mean that dissection would be created within the party that would not die for many years."

Mr. Jones declined to comment on the rival candidacies of Harry M. Daugherty, of Columbus, and Myron T. Herrick of Cleveland and others for the Republican senatorial nomination.

What Would You Have Done?
Mary, aged seven, had been invited to a party; her sister Jo, aged five and a half, had been omitted from the list of those requested to be present. Therefore, the bitterness of despair rankled in her childish heart. And she was so helpless against this unfair discrimination. She was brave so she choked back expression of the rage that was in her, but for this reason it seethed and boiled more furiously.

She strolled into the library and leaned forlornly upon the desk. At this psychological moment Mary appeared, attired for the party and unconsciously wearing the air of superiority assumed by virtue when it has met its reward and enhanced by the consciousness of being well dressed.

The temptation was too great. Jo seized a pen, plunged it to the bottom of the brimming ink well, and hurled its atramentous (atramentous is good, don't you think?) load with fatal aim at the unendurable party equipment of her sister, and the dainty white frock was spattered from top to bottom with vengeful black spots.

IT'S YOUR LIVER! YOU'RE BILIOUS, HEADACHY, SICK

DON'T STAY CONSTIPATED WITH
BREATH BAD, STOMACH
SOUR OR COLD.

ENJOY LIFE! LIVE YOUR LIVER
LIKE BOWELS TO-NIGHT
AND FEEL FINE.

To-night sure! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive and stomach sour. Don't stay bilious, sick, headachy, constipated and full of colic. Why don't you get a box of Cascarets from the drug store now? Eat one or two to-night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or bother you all the next day like calomel, salts and pills. They act gently but thoroughly. Mothers should give cross, sick, bilious or feverish children a whole Cascaret any time. They are harmless and children love them.

An Old, Family Cough Remedy, Home-Made

Easily Prepared—Costs Very
Little, but is Prompt, Sure
and Effective

By making this pint of old-time cough syrup at home you not only save about \$2, as compared with the ready-made kind, but you will also have a much more prompt and positive remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly—and is excellent, too, for bronchitis, bronchial asthma, hoarseness and spasmodic croup.

Get from any drug store 2½ ounces of Pinex (56 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Full directions with Pinex. Keeps perfectly and tastes good.

You can feel this take hold of a cough or cold in a way that means business. It quickly loosens the dry, hoarse or painful cough and heals the inflamed membranes. It also has a remarkable effect in overcoming the persistent loose cough by stopping the inflamed membrane in the throat and bronchial tubes.

The effect of Pinex on the membranes is known by almost every one. Pinex is a most valuable concentrated compound of genuine Norway pine extract combined with guaiaol and other natural healing pine elements.

There are many worthless imitations of this famous mixture. To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and do not accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

Following the game a delicious luncheon was served the following guests: Mrs. Fred Warner, Mrs. James Cooper, Mrs. Carl Swisher, Mrs. Ralph Hutchinson, Mrs. Frank Douce, Misses Leontine Moore, Katherine Sedgwick, Mary Mahon, Leora Phillips, Louise Elliott, Edythe Hall and Rhea Ingler.

Miss Mary Johns entertained a number of her friends, Monday evening, in honor of her 17th birthday. The evening was spent in music and games, followed by a taffy pull. Those entertained were: Messrs. Raymond Most, Edwin Parker, Evan Gamberinger, William Davison, Roland Wade, Misses Myrtle Ross, Elizabeth Adam, Elizabeth McWilliam, Alice Prior, Hazel Stasel, Jeanette Talbot, Ruth Bliss, Irene and Clara Johns and the hostess.

Two Newark women were honored at the district meeting of the Ladies' Auxiliary Knights of St. John which was held in Columbus on Sunday.

The sessions were held in the auditorium of the Holy Family church, and the election of officers was held at which time, Miss Anna Stare, of Newark, was made second vice president, and Mrs. Winifred Murdock also of this city was elected treasurer.

The members in attendance were delightfully entertained and there were sixteen members of the local auxiliary present at the meeting.

The wedding of Miss Florence McCarthy and Mr. Frank Ewald will be solemnized at nine o'clock Wednesday morning at St. Francis de Sales church.

The meeting of the Progressive Club which was to have been held at the home of Mrs. Frank L. Johnson tomorrow will be held at the home of Mrs. F. M. B. Windle in North Fourth street.

The members of the Tuesday Afternoon Bridge Club are being entertained this afternoon at the home of Mrs. Richard Collins in Hudson avenue.

The W. S. W. Girls were delightfully entertained at the home of Helen Thompson. The evening was spent in music and sewing contests. Dorothy Halderman and Thelma Tomlinson being the lucky contestants. A delightful luncheon was served to the members and one guest. The next meeting will be at the home of Florence Perry, Friday, January 22.

The Tuesday Afternoon Sewing club is being entertained at the home of Mrs. A. W. Patton in Hudson avenue this afternoon.

The condition of Mr. Walter C. Symons, who is seriously ill at his home in North Fourth street, remains unchanged today.

PRESIDENT WILL DEFEND PROGRAM BEFORE COUNTRY

Washington, Jan. 18.—Preparation of itineraries for several speaking trips President Wilson expects to take within the next few months to lay the preparedness program before the country was begun today at the White House. The president believes that in some sections of the country the necessity for strengthening the army and navy is not fully recognized.

Invitations to visit more than 400 cities, including Chicago, St. Louis, Cincinnati, Toledo, Milwaukee, Baltimore, New York, and points in the South and far West, have been received. They are now before the president for decision on which to accept.

Indications today were that aside from his speeches in New York, January 27, and here on February 10, the president will deliver most of the addresses in the middle west, with a possibility of some in the South. He has been told that need for more preparedness is better recognized in the East and on the Pacific coast.

The president will be unable to make any extended trips. He is scheduled to make several trips, each taking two to four days each.

B. F. McDONALD GIVES LECTURE ON "MOONSHINE"

Despite the inclemency of the weather, Monday evening, a great many persons took advantage of the opportunity to hear B. F. McDonald's lecture, "Moonshine," delivered in the auditorium of the Knights of Pythian home in East Main street.

The Second Presbyterian church quartette rendered several sacred selections which were illustrated on a screen. An orchestra composed of members of the lodge furnished music throughout the evening.

C. L. Vanatta, acting as chairman, introduced Mr. McDonald who he said would deliver his famous lecture entitled "Moonshine." This lecture according to members of the lodge has won recognition from press and critics throughout the United States where Mr. McDonald has given it on the Chautauqua platform.

The lecture expounds the text that the moon reflects on the life of society and in its reflections everything appears fine on the surface.

Mr. McDonald brought the point to his hearers in a forceful manner and his theory showed the work of deep research on the part of a highly educated man.

THE SICK

S. D. Perks, the bricklayer, has been confined to his home, 8 Baker street, since December 29th, by an attack of congestion of the liver and yellow jaundice. Mr. Perks' recovery is not as rapid as his friends would like.

Obituary

Infant's Death.
The two days old daughter of Mr. and Mrs. Orville Warner died at the home in South Fourth street at 7:30 Sunday morning. Burial was made in Cedar Hill Cemetery at 10 o'clock Monday.

Mrs. Samantha Richards.
Mrs. Samantha Richards was born December 3, 1833, and died December 31, 1915, aged 82 years and 27 days. She was united in marriage to David Richards in 1854, he having preceded her to the great beyond 29 years ago. To this union were born 13 children, four of them having departed this life, nine are still living.

Mrs. Mary Shannon of Long Run, Mrs. Ida Anderson of Frazesburg, Mrs. Hattie Wagner of Frazesburg, John Richards of Newark, Mrs. Emma Shank of Newark, Charles Richards of Newark, Mrs. Fannie Wood of Newark, Misses Hulda and Dora of the home. There are eight friends to mourn her demise. She, with her husband, joined the U. B. church at Mt. Gilead sixty-one years ago. During all these years she has been a devoted and earnest worker in the Master's vineyard, always planning and working for those she loved. We know that the Lord has received her unto Himself. The vacant place can never be filled and we shall cherish her memory as one loved but not lost. She is at rest.

Frank Dry's Funeral.
The funeral services of Frank Dry, who died early Monday at his home, 193 South Fourth street, will be held from the late home, Wednesday afternoon at 1 o'clock. Rev. G. B. Schmidt will officiate. Interment will be made in Cedar Hill cemetery.

Mary Lucette Warner.
Mary Lucette Warner, the infant daughter of Mr. and Mrs. Orville Warner, who died Sunday, was buried yesterday morning at Cedar Hill cemetery. Rev. C. H. Stull officiating. The child was three days old.

John O'Neill.
John O'Neill, two-weeks-old son of Mr. and Mrs. Edward O'Neill, 101 Buena Vista street, died at 6 o'clock last night. Burial was made this afternoon at Mt. Calvary cemetery.

Dwight Truesdale.
Word has been received here of the death of Mr. Dwight Truesdale, which occurred at his home in Philadelphia before Christmas. The deceased was formerly a superintendent at the Weble company, and left Newark about eight years ago.

Milton McKee.
Word was received this morning of the death of Milton McKee, which occurred early today in the city hospital at Los Angeles, Cal. Mr. McKee, who left here about six years ago, had made preparations to come to Ohio right after the holidays when he was stricken with Bright's disease.

Milton McKee made his home in this city and Columbus. He formerly assisted in the Smith Brothers grocery in Hudson avenue. He was

IS YOUR COMB FULL OF FALLEN HAIR?

What to Do When Hair Comes Out.
Loose hairs in your comb and brush is Nature's way of waving a red flag in your face to tell you that your hair and scalp are losing vitality and that it is time you did something for them.

Don't disregard the warning. A little attention now may mean long, thick, luxuriant hair for you for years to come. A little further neglect and thin dry dull lifeless brittle hair and finally baldness may result. To vitalize the scalp till it tingles with vibrant energy—to make every hair on your head healthy—get a package of Parian Sage from W. A. Erman or any good druggist in town and rub a little right into your scalp with the finger tips.

Parian Sage acts directly on the entire cell life of the hair—from root to tip—helping healthy growth and stimulating a beautiful glossy texture and glorious luxuriance. Notice how quickly your hair stops coming out on brush and comb—how it is easier to handle and dress and how all signs of itching or dandruff quickly disappear. It is not expensive.

an uncle to Mrs. B. B. Jones and Mrs. C. L. Sturgeon of this city and is survived by two sisters, Mrs. Reed Dunlap and Mrs. John Montgomery of Columbus, at which place the remains will be interred.

Mrs. Edward Parnell.
Mrs. Burr Miller of 215 West Church street has received a telegram announcing the death of Mrs. E. W. Parnell at her home in Wilmington, Del. Mr. Parnell is a brother of Mrs. Miller.

Mrs. Parnell was aged about 40 years and died at her home on Monday after an illness of but ten days of pneumonia. Her home had always been in Wilmington, and the funeral services will be held there. Mr. Parnell is well known in Newark, having made his home here for many years.

BIG DEAL WAS CONCLUDED AT BUCKEYE LAKE

(Special to Advocate.)

Hebron, Jan. 18.—Emmett Deffenbach of Lancaster, former state fire marshal, has purchased Summerland Beach, and when seen here today by an Advocate representative stated that Captain Del Fisher, who is well known to visitors to Buckeye Lake, was his partner in the transaction.

Mr. Deffenbach and Captain Fisher also have taken over the Glass Hotel and Pavilion at the Lake, and Mr. Deffenbach is actively associated with the company which purchased the Shell Beach Hotel last year, although this is in no way connected with the new transactions of Mr. Deffenbach and Mr. Fisher.

Summerland Beach will continue to book excursions and Chautauques, as under the former management, and the new company contemplates many improvements there and at the Glass Hotel. At the latter place the two wings of the hotel will be connected giving an additional accommodation of about twenty rooms. The contract for this work already has been given.

At present Captain Fisher has been placed practically in charge of Buckeye Lake Park by the Ohio Electric railway company and is engaged in putting up ice for summer consumption.

Mr. Fisher has long been established at the lake, having had the Fisher boat line operating there for several years, and in extending the scope of his holdings, he will bring to the partnership with Mr. Deffenbach a wide experience in the work.

WILLIS MAY NOT APPROVE WOMAN AS FILM CENSOR

(ASSOCIATED PRESS TELEGRAM)
Columbus, Jan. 18.—Governor Willis favors Mrs. Carlotta Price-Shea of Bellefontaine as successor of Mrs. Maude Murray Miller of Columbus, as member of the state board of moving picture censors, it was said by officials of the executive department today. Mrs. Miller was re-elected yesterday by the industrial commission under whose authority the board of censors is placed, by a vote of two to one. The governor's approval is necessary, however, and it is considered doubtful that he will ratify the selection of Mrs. Miller.

ENTIRE AERIE OF EAGLES ON TRIAL AT CINCINNATI

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, O., Jan. 18.—With the arrival here today of the trial officers, it became known that the entire membership of the Cincinnati Aerie of Eagles will be placed on trial here tonight charged collectively with "conduct unbecoming Eagles."

The trial officers are former Governor Theodore A. Bell of California; Dr. Carl Winter of Indianapolis, and E. J. Shanahan of Kansas City. Four officers of the Cincinnati aerie and one member are to be charged on specific charges of "conduct unbecoming Eagles."

The trials are the outgrowth of differences that originated in the local lodge some time ago relative to the expenditures of money on a trip to one of the annual reunions of Eagles.

These differences caused the aerie to split into two factions and charges and counter charges were made. As a climax an election was held recently by one faction despite the fact that the national officers had ordered the election postponed until the national body could investigate the matter. The membership of the local aerie numbers more than 2,200.

New York, Jan. 18.—Ignatius T. Treblich Lincoln, a former member of the British parliament, and a self-confessed German spy, and who was being held here pending extradition to England, escaped from a United States deputy marshal last Saturday. It was learned today and has not been seen since.

To Put An End to All Superfluous Hair

Specialist's Advice To Ladies
A simple, inexpensive treatment has just been found which never fails to remove all traces of superfluous hair absolutely without pain or injury. A well-known society woman found that it entirely destroyed all trace of her own unsightly hair-growths so that they never returned. It is called Mrs. Osmond's Wonder. If you want sure, quick results get it from T. J. Evans or any up-to-date druggist with Signed Money-Back Guarantee with every package.

Gentle Rubbing Helps Varicose Veins

Rubbing the swollen veins nightly for about two minutes with a gentle upward stroke brings benefit to sufferers and is mighty good advice, says an authority.
After the rubbing, which should always be toward the heart, because the blood in the veins flows that way, apply Emerald Oil (full strength) with brush or hand.

Try this simple home treatment for a few days and improvement will be noticed. The swollen and aching veins are reduced to normal. It is very concentrated and penetrating and can be obtained at any modern drug store. It is so powerful that it also reduces Gout and Wens. Evans Drug Store has Emerald Oil in the original bottle and will be glad to supply it.

Finest Tonic Bitters To Build You Up.

Take a little drink of El Vesuvio Tonic Bitters before meals if you want a healthy, hearty appetite, physician says.
T. J. Evans has arranged with the makers to supply it for the benefit of people in Newark and vicinity. You can get almost a pint bottle for not more than 50 cents.

It is highly recommended for malaria, lack of appetite, indigestion and constipation. It puts color in your cheeks and the sparkle of boyhood health in your eyes.

War Upon Pain.

Pain is a visitor in every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal. writes: "Last Saturday, after tramping with wet feet, I came home with my neck stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March, 1915. At Druggists 25c.

Stomach Troubles Quickly Cured.

People go on suffering from little stomach troubles for years, and imagine the have a serious disease. They over-eat or over-drink and force on the stomach a lot of extra work, but they never think that the stomach needs extra help to do the extra work.

If these people would take Tonic Tablets regularly they would be a great big help to the stomach in its strain of over-work. No matter what you eat or drink Tonic Tablets sweeten your sour stomach and stop gas belching in five minutes. The heaviness disappears, and the stomach is greatly aided in its work of digestion.

Tonic Tablets.
not only promptly relieves all distress, but if taken regularly will absolutely cure indigestion by building up the flabby, overworked walls of the stomach and make them strong enough to digest the most hearty meal. \$1 for 15 days' treatment. For Sale by Hall's Drug Store.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To
Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffing, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburger Breast Tea, or as the Germans call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.

Help Your Liver—It Pays.
When your liver gets torpid and your stomach acts queer, take Dr. King's New Life Pills and you will find yourself feeling better. They purify the blood, give you freedom from constipation, biliousness, sleeplessness and indigestion. You feel just like you want to feel. Clean complexion too. 35c at druggists.

SAFETY FIRST MEETING WAS FINE AFFAIR

The Safety First meeting of the B. & O. employees was held last evening at Taylor Hall and a splendid program of addresses was carried out. The musical feature of the program was more than enjoyable and all present were well paid for having attended.

When the assemblage was called to order at 8 o'clock there were about 250 present, after a selection by an orchestra, directed by Mr. Frank Reynolds, and a song by Mr. Stevens was introduced and opened the program with a talk on "Safety First" in the operating department. Mr. Stevens is the new superintendent of the Newark Division. He is a pleasing and fluent talker and his address was greatly enjoyed.

A male quartette composed of Carl Jones, Frank Reynolds, C. Wise and Otis Riggs next rendered a selection and was compelled to respond to an encore. Master Mechanic W. Malthaner was called east on important business yesterday and his place on the program was taken by Hon. Edward Kibler, legal representative of the B. & O. Mr. Kibler entertained the audience with a splendid talk on safety first and its relations to the legal department of the railroad. He told a number of anecdotes and his address proved more than interesting.

A violin solo, "Perpetuo," by C. Bohn, was next excellently rendered by Miss Martha Flurschütz and this was followed with "Nocturne," by Schumann, the musicians being Miss Flurschütz, violin, Mrs. D. D. Tullis, cello, Mrs. T. J. Daly, piano. Their number was heartily encored and they were forced to render a second selection.

The main address of the evening was next given by Mr. E. R. Scoville, general chairman of the safety committee of the B. & O. system. He talked on "Safety First," the lecture being illustrated with thirty stereoscopic slides, the Y. M. C. A. electrician assisting. Mr. Scoville is undoubtedly one of the best posted men in the country on the subject of his address and his auditors listened attentively while he explained with the use of his slides how numerous accidents could be avoided by always remembering to observe safety first. No doubt was an excellent one and no address will be productive of good results.

A selection by the orchestra closed the meeting.

GUILT

OF SOXS WHO CONSPIRED TO KILL PARENTS, FATHER THINKS EQUAL

And He Refuses to Furnish Bail for Either — Police Investigating Further.

(Associated Press Telegram)
Chicago, Jan. 18.—Further investigation into the alleged conspiracy of Irving and Herbert Uptake, to kill their parents was undertaken today by the police who are co-operating with the Uptake family in clearing up the mystery still surrounding the case.

Furman D. Uptake, millionaire retired broker, today still refused to furnish bail for his sons both of whom are in custody charged with conspiracy to commit a felony. Although it was said at the time of the arrest that Herbert Uptake was held only as a witness, a statement by the boys' father that he considered his sons equally guilty and the report that Herbert had married a Chicago cabaret entertainer, influenced the police to investigate further.

According to the police, Herbert Uptake, January 8, married Miss Nellie De Onsonne, at Crown Point, Ind. The authorities say a marriage license is on file at the county clerk's office at Crown Point, Ind., showing that the ceremony was performed by a justice of the peace.

The young woman and Herbert, however, deny they are married. Prospective bondsmen for Irving and Herbert Uptake, brother, who confessed to having plotted to take the life of their father, Furman D. Uptake, a wealthy retired broker of Oak Park, a western suburb, were unable to find the young men today.

It was believed that the brothers were being held either in the Oak Park police station or in some city police station while the police look more closely into their confessions. The present attitude of Mr. Uptake is that Herbert, who yesterday was regarded as having joined the plot to defeat the purpose of his brother Irving, should have made speedier revelation of the design against his parents.

Irving was said by his relatives to be suffering from a mental disorder but Herbert was always regarded as normal, and his relations with a cabaret singer with whom he journeyed to Crown Point, Ind., where they procured a marriage license, are being inquired into. The attorney who sought to give bail for the two arrested his securities to the justice for approval, and said that if the young men were not speedily forthcoming, he would take immediate steps to obtain their release through the courts.

Chicago, Jan. 18.—Higher quotations but strength today in wheat. Stimulus for buyers was found also in reports of cold weather damage to the corn crop and in the fact that receipts were decreasing both northwest and southwest. A gain in the European wheat supply total had only a temporary bearish effect. Opening prices, which ranged from 1 1/4% higher with May at 1.29 1/2 to 1.29 1/2.

and July at 1.22 1/2@1.23 1/2, were followed by a moderate reaction and then a firm upturn.
Subsequently the market touched new high price records for the 1915 crop. Seaboard interests were credited with being big buyers. The close was buoyant, 2 1/2 to 3 net higher with May at 1.24 1/2 and July 1.24 1/2.

Prospects for larger receipts tended to weaken corn. The strength of wheat, however, acted as an offset. After opening a shade to 1 lower the market rallied to about yesterday's finish.
Price changes kept within a narrow range throughout the day. The close was unsettled at 1 1/2 to 1 3/4 net advance.
Oats showed independent strength. There was continued activity but not the theory that oats were at too wide a discount as compared with corn. Higher prices on hogs were apparently ignored.
Afterward the market hardened in response to a comparative lull in the profit-taking by longs in hard. Government figures on farm animals came too late to have any effect on the bulk of the day's business.

New York, Jan. 18.—Steel and other leaders went to lower prices in the final hour but Industrial Alcohol rose to the new record of 45. The closing was irregular.
Standard shares and numerous specialties were under constant pressure in today's narrow and professional market.
Few features of interest developed in today's early trading. Prices showed no material change except the special group. Bethlehem Steel rose 3 to 4 1/2, American Coal Products 2 to 1 1/2 and Mexican Marine issues gave promise of retaining all their recent prominence and strength. The common shares advancing over a point to the new record of 22 1/2.

Fertilizers, particularly Virginia, Carolina (chemical), also supplemented yesterday's gains but elsewhere the list manifested irregular tendencies. U. S. Steel and leading rails were moderately lower.
Trading in marines comprised over one-third of the first hour's light operations. The preferred shares were inclined to react in common with the general movement, most leading stocks either repeating or falling under yesterday's gains but elsewhere the most striking exceptions were Central Leather, American Hide and Leather (referred), National Lead, Tennessee Copper and the sugar group. Bethlehem Steel fell 15 to 4 1/2 and United States Steel while relatively inactive.

HAVE ARRESTED MAN FOR MURDER DOLORES EVANS

(Associated Press Telegram)
Cleveland, O., January 18.—Cleveland officers were in Albany, N. Y., today with requests from Governor Willis, secured yesterday at Columbus, for the requisition of Louis Bianchetti, under arrest in New York for the murder of Dolores Evans, a 19-year-old actress in a hotel here last Tuesday.

Bianchetti was indicted for first degree murder here last yesterday. The Evans girl was choked to death and her body was not found until the next day.
Bianchetti was a thief for a local athletic club, and was traced to Akron and then to New York. He is said to have confessed to New York officers saying he fought with the girl, when she tried to rob him but did not intend to kill her, and did not know she was dead until the following day.

EXPECTED TO SUGGEST PLANS
FOR BUILDING TO HOUSE
OFFICES

State Association of the American In-
stitute Hold Annual Meeting in
Columbus.

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Jan. 18.—Sug-
gestions are expected today on a new
building to house state offices, from
delegates to the annual meeting of
the State Association of the American
Institute of Architects. The archi-
tects held their first meeting today
with delegates from all of the larger
cities of the state present. Another
session will be held tomorrow.

Other topics scheduled for discus-
sion are the state building code and
future legislation and a proposed
contract form for use by the state
in employment of architects for
state work. Frank L. Packard of
this city is on the program for a
paper on the latter subject. A paper
was to be prepared by Joseph G.
Steinkamp of Cincinnati on the state
building code subject.

The Columbus Chapter of the in-
stitute will entertain the visiting
delegates.

The state officers are George M.
Anderson of Cincinnati, president; C.
W. Bellows, of Columbus, vice presi-
dent; Herbert B. Briggs, of Cleve-
land, secretary-treasurer.

Man May Err; Nature Makes No Mistake

One of a Series of Talks On Health
By Newark's Leading Druggists.

By R. W. SMITH, Pharmacist
Thousands of men and women
deny themselves the God-given right
to good health and long life. They over-
eat and under-exercise. They become
lazy-livered and sluggish bowels.
Ill-health is their reward. Emancipa-
tion from constipation will shake off
the shackles of sickness. It means
better health—more ambition—greater
efficiency.

Down deep with-
in the earth where
man's eye cannot
penetrate, Nature compounds a
wonderful natural laxative water,
then forces it to the surface. These
health-giving, bubbly springs at West
Baden, Indiana, have been visited by
more than a million men and women
who had constant, headaches, stom-
ach, liver, kidney and bowel trouble
and other upsets caused by constipa-
tion. The water restored their health.
Now this natural laxative water is
bottled at the springs. Druggists sell
the large size for 35c—small ones for
15c. A glassful of West Baden
Sprudel Water once a week is man's
cheapest and best health insurance.

As a pharmacist and business man,
R. W. Smith enjoys the confidence and
good will of thousands of people. His
store at 37 South Park Place is where
prescription work receives the most
scrupulous attention and the health
and welfare of his customers always
is uppermost. When a man of his
standing and reputation recommends
West Baden Sprudel Water, it is but
further evidence of its great value to
man.

Metro production of "The Wo-

ing situations in this absorbing
photo drama, which centers around
the vanity of a woman who brings

display her dramatic talent.

Society Ladies Adopt New Hair Curling Method

Since the introduction of liquid sal-
mon in this country it has become
quite the "proper thing" among so-
ciety women, who have readily adopted
it in place of the destructive curling
iron. The waves and curls acquired
by the new method are far more nat-
ural in appearance and the hair is of
course glossier and prettier than could
be if the hair were cooked out of it.
The liquid is pleasant to use, being
neither sticky nor sticky. It is a sim-
ple thing to apply with a clean tooth
brush at night when the hair is down.
The lovely wave effect in evidence in
the morning is all that one could wish
for. It costs little to use liquid sal-
mon, as a few ounces from the
druggist will keep the hair in curl for
weeks.—Advertisement.

ing with the duo were originally
published, have stepped from the
pages of a magazine, and are among
us.

One's conception of the type of
men that Glass set down in writing
is not changed when the prototype
of the two business men are seen
upon the stage, and it seems like
meeting old friends to see Abe and
Mawruss walking about in their of-
fice selling goods, or engaged in
heated squabbles.

They are so very human, are Abe
and Mawruss, each with his keen
sense for the dollar, but each too,
with a kind-heartedness that is will-
ing to make any sacrifice, even with
some slight manifestation of regret.

The selection of material from the
Glass stories for the play has been
adroit, leaving the Potash and Per-
lmutter combination as of deepest in-
terest, and accentuating the comedy
element in the most admirable way.
The splendid company is headed by
Phil White and Harry Flint at the
Hartman, this week.

Alhambra Wednesday and Thursday

N. Y. Times.—George Beban came
to the Astor Theatre last evening
with his admirable and long-familiar
character study of Pietro Massena,
the poor Italian from the tenements,
who, through a cruel mistake, is ar-
rested for kidnapping at a time when
he is sick with grief over the death
of his own little girl. The occasion
of this revival was the first per-
formance here of "An Alien," an ur-
usual photoplay, based on Mr.
Beban's old success, "The Sign of the

Rose." The resulting entertainment
is rich in its appeal to the lover of
the movies.

"An Alien" is notable chiefly for
the excellent scene in the tenement
between Pietro and his little Rosina,
and the strikingly realistic scene
where the child is struck and killed
by a motor car skidding along the
slippery, crowded Italian quarter
throughfare. This sketch of the film
is of the sort to lift you out of your
seat. The playing is all acceptable.
Mr. Beban's own work being of that
vividly expressive sort which is
graphically effective on the screen.

The average woman detects a man
who flatters almost as much as she
dislikes one who doesn't.

FOR SKINS AFFECTED BY WINDS AND WEATHER

This is the season when she who
would have a spotless, lily-white
satin complexion should turn her
thoughts to mercurized wax, the firm
friend of the winter girl. Nothing so
effectually overcomes the despoiling
effects of piercing winds and biting
cold temperatures. The wax literally
absorbs the chapped, reddened or
coarsened cuticle, bringing forth a
brand new skin, clear, soft and gir-
lishly beautiful. An ounce of mer-
curized wax, obtainable at any drugstore,
applied nightly like cold cream, and
washed off mornings, will gradually
improve the worst complexion.

She who coddles herself all day in
an over-heated house and finds her
skin flushed and flabby as a conse-
quence, can quickly freshen up for the
evening by just bathing her face in a
portion made by dissolving an ounce of
powdered sylvite in a half pint water.
hazel. She'll find this most refresh-
ing. It smooths out wrinkles and
draws in the saggy tissue.

WILLARD TRAINS FOR MATCH WITH FRANK MORAN

Kansas City, Jan. 18.—Jess Willard, heavyweight champion of the world, who last night signed an agreement to meet Frank Moran of Pittsburgh, in a ten round fight in New York between April 10 and 22, started today to condition himself for the contest. Willard went to Excelsior Springs, Mo., and it is there he intends to do some of the preliminary training, which will include night road work and perhaps boxing.

Jack Curley, who is promoting the fight is on his way today to New York to get Moran's signature to the contract.

The articles of agreement which will give Willard \$32,500 or the privilege of forty-five per cent of the gate receipts after the state tax is deducted and 51 per cent of the motion picture rights, stipulate that Willard is to be paid by February 15, the contract becomes void. The contract also calls for Willard's appearance in New York City at least 30 days before the fight.

Curley stated that he intends to hold the fight in the open air.

HERRMAN MAY LOSE OUT WHEN SHIFTS ARE MADE

Chicago, Jan. 18.—Reorganization of the national commission, the supreme court of baseball, and elimination of Garry Herrmann as its chairman, was spoken of yesterday in an article in the Chicago Daily News, which said:

"Dissolution of the national commission and reorganization under a new regime seems to be the plan of the American league. This includes the passing of Garry Herrmann as chairman of the supreme court of baseball."

The News quoted President B. B. Johnson of the league as favoring "a change in the method of conducting baseball business."

NO DECISION TO BE GIVEN IN GIBBONS MILL

St. Paul, Minn., Jan. 17.—The re-argued case for the re-nomination to grant a retrial decision in the 10 round bout between Mike Gibbons and Young Aarsen here tonight was denied by the Minnesota boxing commission at a meeting at the city hall. The commission issued a statement that it had decided to grant Gibbons a 10 round bout with Jack McHughen of Philadelphia to referee tonight's contest.

GRANTS PURCHASE BENNY KAUFF AND OTHER PLAYERS

New York, Jan. 18.—It was announced yesterday by President Harry N. Hempstead of the New York National League baseball club that he had purchased Benny Kauff, star outfielder of the Federal league, and two other Federal league players. The other Federals purchased by the Giants are W. A. Rariden, catcher, of Newark, and Fred Anderson, pitcher, of Buffalo.

The deal was made through Harry F. Sinclair, who has held an option on the services of the three players. The money consideration was not divulged by President Hempstead. He said that was a secret between Sinclair and himself. Among the rumors concerning the purchase was one that Kauff's transfer and services will cost the Giants \$30,000.

Among baseball men it is believed that Sinclair's action in selling the players to the Giants virtually ends all rumors that he was to purchase the club.

WELLS PREPARES FOR BOUT WITH COLUMBUS BOY

Jimmie Wells, the West Side featherweight, began training today for his four-round bout with Young Nichols of Columbus, at the East State street Coliseum on next Monday evening, January 24. Wells and Nichols will meet in the curtain raiser to the Jimmie Duffy-Jack Perry 12-round bout before the Tuxedo club.

Nichols who is a promising youngster is the owner of a K. O. kick in either mitt and will make Wells step the limit for the division. Wells also carries a sleep wallop in either hand, and the fans are promised plenty of real action.

Jimmie Duffy conceded to be one of the best men in his class has been winning quite regularly and he met Ted Lewis several weeks ago. Duffy was rocked to sleep in the first round. The story of this fight was to the effect that when Duffy extended his right hand to Lewis, the latter touched his left glove to Jimmie's hand and then crossed over with a right swing to the jaw. Duffy took the count without striking a blow.

Duffy's manager states there will be no hand shaking the next time they meet. Jack Perry has been coming to the front rapidly and is confident that he can repeat Lewis' feat of knocking Duffy to dreamland.

A good sized crowd of Newark fans are engaging their tickets for the bout and will be on hand to watch Wells make another try for fistic fame.

DUFFY'S ATTACK ALMOST SCORES A KNOCKOUT

Rochester, N. Y., Jan. 18.—Jimmy Duffy of Lockport, N. Y., gave Battling Gates of Wilkes-Barre an artistic boxing performance last night. Duffy won in every round and had Gates on the verge of a knockout when the tenth round ended. Duffy is to box Jack Perry in Columbus next Monday night.

NOTICE, L. O. O. M.

The members of the lodge and all others who have been selling tickets for the automobile smoker are hereby requested to notify all holders of tickets that the smoker will be given Wednesday evening, February 2, instead of January 17, as announced. It was found necessary to change the date owing to the fact that the committee was unable to get into communication with some of the out of town ticket holders to notify them of the date. However, this will be the last postponement and the smoker will positively be given February 2d. Consequently, all members should have the tickets all sold and arrangements made to attend.

A large attendance from neighboring lodges is expected and a good time is assured.

SULLY CHARTERS SPECIAL TRAIN FOR AKRON BOUT

Harry Sully, the Columbus match-maker, has chartered a special train over the C. & C. from Columbus to Akron and return, to carry the fight in this section to the Johnny Griffith-Fredie Welsh 12-round bout at Akron, January 25. The fare to Akron and return will be \$5.60, but Newark fans who go by way of Mt. Vernon can catch the special in that city. Sully has a number of reserved seats engaged and the Newark contingent can secure seats in the fifth row, ringside, by addressing Sully at the Perfecto Cigar store, Columbus.

ULTIMATUM IS SENT GREECE BY ENTENTE

(Associated Press Telegram)
Berlin, Jan. 18.—(By wireless to Sayville.)—A note to the Greek government, amounting to an ultimatum is said by the Overseas news agency to have been presented by France and Great Britain. According to a Sofia dispatch to the news agency, Greece is required to deliver their passports to the ministers of the central powers within forty-eight hours, failing in which the entente will take "necessary measures."

Berlin dispatches of yesterday which have not been corroborated from French or British sources, stated that unusual measures were being taken by the allies in Greece. According to these reports allied troops were landed at Phaleron, five miles southwest of Athens, and also at Piraeus, the port of Athens. In this connection the Overseas news agency of Berlin said:
"The fact that the British are blockading the Greece coast most tightly and are subjecting Greece to other inconveniences is interpreted by Berlin newspapers as meaning that the entente is preparing the overthrow of the Greek government to substitute a republic with Venizelos at its head."

RHEUMATICS SHOULD KEEP FEET DRY

Drink Plenty of Lemonade and Water and Avoid Alcoholic Drinks.

All this talk that rheumatism can't be cured, that people must suffer terrible agony, gnawing pain and swollen joints until the disease has run its course, is all humbug.

Modern physicians know this, and many of them are prescribing a doctor's prescription known as Rheuma, which all good druggists keep in stock.

To end rheumatism or sciatica and banish it forever, you must fight it and conquer it with something more powerful than the poisonous secretions that cause it.

Rheuma is a powerful yet harmless remedy, and the very first half-teaspoonful dose you take will indicate to you that the poisons are leaving your system.

T. J. Evans or any druggist from whom you purchase Rheuma will gladly hand you back your money if two 50-cent bottles do not stop the gnawing pain, the sharp twinges, and reduce the swollen, twisted joints.

MEAT AND MILK DEALERS MUST GET NEW PERMITS

Milk and meat dealers in the city must have new permits from the health department if they expect to continue to do business in the city within the new year. The time limit has expired when the dealers will be allowed to do business on the old permits and those who have neglected to secure the 1916 documents are subjected to prosecution for violation of the health department rules. Permits may be secured at Health Officer Knauss' office.

In neither China nor Japan is there any production of milk worth mentioning. It is foreign to their diet and only imported condensed milk is obtained except at a few places.

Granville

(Special to the Advocate.)

Granville, Jan. 18.—Dr. F. A. Agar who is at the Baptist church for the first three days of the special meetings is an interesting and striking personality. Though comparatively a young man his hair is perfectly white, made so permanently by an attack of beri-beri contracted while a missionary in Africa. He returned to London a helpless paralytic, but after some years he recovered in a remarkable way and came to this country where he engaged in pioneer missionary work in the far west. Through this he was led into state convention work, and later into the national interests of the Baptist churches to which he now gives all his time. He is one of the most popular leaders in the great missionary conventions being held this winter throughout the country.

Dr. Agar is a dramatic in the best sense in his presentation of truth. His method is to present his subject concretely through illustrations, and these have added interest because they are drawn so largely from his own varied experience. Last night he held the audience in rapt attention as he spoke on the "Holy Spirit" as a personal helper—one called to the side for aid in time of need. He speaks tonight and Wednesday at seven o'clock and the people of Granville ought to avail themselves of the opportunity to hear him.

In the absence of Mrs. Stickney, president of the Travelers' Club, the meeting on Monday afternoon, January 17, was conducted by the first vice president Mrs. Hopkins, and was held in the Auditorium of the Baptist church instead of in its accustomed corner of the large parlor. This arrangement was made necessary by reason of the women's meeting, which had been arranged for 3:30 in the social room. The Travelers' program loses nothing in interest and fascination as it is developed from week to week, and the historical research necessary in presenting a well constructed paper has been of great value to each one of the active members, because every active member is required to write at least one paper during the club year, the majority of them being responsible for two. Yesterday afternoon under the place name of Norembo, the early French heroes were featured, the quotation used being: "Noble by Birth, Yet Nobler by Great Deeds."

Mrs. J. E. Magaw gave the adventurous career of "Jacques Cartier" who was the first of the French explorers and discoverers to claim Canada for the French King Francis I. In 1535 and the account of his three voyages reads like a romance. Mrs. K. S. Hines in an admirably constructed paper on "French Colonial Policy" presented in clear and forcible manner the reasons why the English were able to oust the French, at least politically, in Canada and as it concerned the Grand Monarch himself, it was picturesque as well as instructive. After a brief business meeting, the members repaired

ed to the social room for the F. A. Agar of New York City.

At the special meeting for women, Rev. Millard Breilford presided, opening the services with music which was led by Mrs. Theodore Johnson soprano and Mrs. T. C. Chambers accompanist. Dr. Agar who is an earnest and eloquent speaker held the attention of his hearers from first word to last. He insisted upon three indispensable things in the spiritual life, worship, work and giving, just as nature insists on three indispensable functions in the physical life of man; heart action, respiration and digestion. The second of these afternoon meetings for women was held today, and there will be one on Wednesday led by Dr. Agar.

DOCTOR SAYS NUXATED IRON WILL INCREASE STRENGTH OF DELICATE PEOPLE 200% IN TEN DAYS

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Suar, Specialist, of this city said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night; others are sleepy and tired all day; some are fussy and irritable; some are thin and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired.

Note—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Nuxated Iron for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

tion in all committees, commissions, or bodies that decide upon military defense.

"The labor movement demands democracy in all things, including military organizations and institutions of the country. It holds that policies and methods of self-defense are best safeguarded when there is an opportunity for all to become members of whatever organizations and institutions whether military or otherwise, exist throughout the country. Not only must entrance to all institutions be freely and equally accorded to all, but the military must be democratically organized, democratically officered and under the control of heads who are responsible to the citizens of the land.

"The labor movement has never advocated the abolition of agencies for the enforcement of right and justice, or for the abolition of the military arm of the government, but it does demand that these shall be so organized as to prevent their misuse and abuse as a means of tyranny, against the workers, and to prevent the development of pernicious results that have grown out of militarism, the building up of a separate military caste and the subversion of civic life to military government, and military standards.

MINERS

(Continued from Page 1.)
ers have already formulated their demands. The convention is expected to ratify them without much discussion. They will leave the way open for wide discussion on the proposition of adopting a basic wage scale for all the bituminous coal fields. Then will come the adoption of a policy that will effect all districts, anthracite and bituminous. The Ohio miners have agreed to ask a ten per cent increase in wages on the mine run basis and hope to have such a demand inserted in the wage scale to be adopted by the convention. Other districts are expected to fall in line with Ohio.

Leaders of the Union say that while industrial conditions are favorable for asking higher wages and general improvement in working conditions, conservative members will try to prevent the convention from making radical demands.

The question of the country's preparedness for war is expected to cause considerable discussion when resolutions bearing on that subject are presented during the sessions. It has been learned that the resolutions committee is divided on what sort of a recommendation should be made to the delegates.

There are all sorts of opinions in the committee as to the degree of preparedness the country should adopt. Some of the leaders are opposed to any change in the country's present military establishment.

Woman's suffrage is also expected to come up. The United Mine Workers are on record as in favor of equal suffrage. It is expected the resolutions committee will recommend that the convention reaffirm its position in favor of votes for women.

Today's Beauty Help

You can keep your hair at its very best by washing it with a teaspoonful of cantharol dissolved in a cup of hot water, afterward rinsing thoroughly with clear water. One finds that the hair dries quickly and evenly, is unstreaked, bright, soft and very fluffy, so fluffy in fact, that it looks more abundant than it is, and so soft that arranging it becomes a pleasure. This simple, inexpensive shampoo cleanses the hair and scalp thoroughly of all dandruff and dirt, and leaves a clean, wholesome feeling. All scalp irritation will disappear, and the hair will be brighter and glossier than ever before.

OTTO VOGELMEIER HAD A BIRTHDAY PARTY LAST EVE

Otta A. Vogelmeier, who conducts a grocery and restaurant at 81 South Fourth street, celebrated his natal anniversary last evening by treating his friends to a pig roast and all the good things that is supposed to accompany such a feast.

The affair was given at Vogelmeier's Hall and over two hundred partook of the host's hospitality. A number of addresses were made all felicitating the host upon the happy occasion. The German Maennerchor was present and rendered several very pleasing selections. Individual numbers were also sung and greatly enjoyed.

REFUGEES

(Continued from Page 1.)
tented Carranza followers will join Villa's standard.

The body of Gen. Jose Rodriguez, former Villa officer, was brought to Juarez last night. Gen. Rodriguez was officially reported to have been executed last Thursday. Mexican authorities announced their intention of placing the body on exhibition today, for the purpose of proving to Americans that the alleged leader of the bandits who massacred eighteen foreigners at Santa Ysabel had been executed.

On October 14, last, General Rodriguez left Juarez at the head of 3,000 men to aid in the Sonora campaign which marked the downfall of Villa. Then he rode in a private car bearing his name on a gilded plate. His body was returned to Juarez in a box car.

Col. Baca-Valles, a Villa bandit, reported by Juarez officials to have been executed at Palomas, was brought here alive on a train which carried the body of Gen. Rodriguez. He was shot to death this morning.

Sonora Emiliano Huerta, in a telegram personally appealed to President Wilson to stop the "persecution" of her family.

She asks that "persecution be not visited on his (Huerta's) children and widow during the time they must remain in this great country." Dr. E. R. Peitskey of the National Mines and Smelter company at Magistral, Durango, one of the refugees who arrived early today, told of having been stood up by six other Americans waiting to be shot by the followers of General Bracamonte, who shot up the camp, and took everything in sight about a week ago. The cutting of the wires to Parral at the time prevented an appeal for help. The Americans were released on payment of 10,000 pesos.

Enrique Perez Rul, secretary to General Francisco Villa, escaping

through the Carranza lines, was in El Paso today, and has renounced further revolutionary activities in Mexico.

VIGOROUS

aside would destroy national solvency.

"The crowning reason for an adequate army and navy for the United States," said Mr. Williams, is not war, but peace.

Mr. Dahman urged the adoption of a naval policy that would ultimately furnish the United States with a navy, an improved personnel law and an increase of 20,000 seamen and naval apprentices to fully man all useful ships.

RAT HUNT ENDS AND VICTORS TO BE ENTERTAINED

At Wilkin Corners ten days ago a campaign of destruction was started against the pests which usually infest rural communities other than the human sort. As a result some thousands of owls, hawks, mice, rats, sparrows and other birds and animals were killed.

The team under the leadership of William Harris made a score of 134-880 while Charles C. Roe registered 104,375. By agreement each animal or bird killed was to count a certain number of points.

Thursday night at the Grange hall, the losers will banquet the victors and some grand feed is promised. Frank L. Dudgeon served both teams in the capacity of referee.

ARKANSAS RACE RIOT.
(Associated Press Telegram)
Hot Springs, Ark., Jan. 18.—One negro was killed and a negro church and schoolhouse was burned in a race riot at Buckville, a small settlement near here, according to reports which reached here tonight. It is reported that the negro who was killed, slapped some small white boys and that this started the trouble.
